ABOUT US

East Hope Contracting Co. Ltd. is a dynamic Saudi-based engineering and general contracting company, established in 2020 and headquartered in Dammam, Eastern Province. We deliver a broad range of construction and industrial services across the Kingdom, grounded in the values of reliability, trust, and adaptability.

Our expertise covers earthworks and roadworks, mechanical installations, excavation, fencing, chemical cleaning, and maintenance services, managing every stage from design to handover with precision and responsiveness.

Aligned with Saudi Vision 2030, we contribute to the Kingdom's infrastructure growth and industrial diversification through high-quality, sustainable, and locally-driven project execution.

VISION رؤية
2030
المملكة العربية السعودية
KINGDOM OF SAUDI ARABIA

CEO's Statement

I'm honored to lead a team of passionate and talented professionals committed to excellence in everything we do. From the beginning, our journey has been guided by a clear vision, strong values, and an unwavering focus on innovation and service.

We are a customer-centric organization—our success is directly linked to the success of our clients and partners. That's why we focus on building lasting relationships, understanding unique needs, and delivering tailored solutions that go beyond expectations. We aim not just to be a service provider, but a trusted partner in every client's growth journey.

Our people are our greatest strength. We invest in their development, empower them with responsibility, and foster a collaborative and inclusive environment where ideas flourish. This culture of continuous learning and teamwork fuels the innovation that defines us.

Looking ahead, we are excited about the opportunities before us. With the support of our dedicated team, loyal clients, and valued partners, we remain committed to creating positive impact—through every project, every solution, and every interaction.

Thank you for your continued trust and support.

Sincerely,
ABDUL AZIZ AL-HARBI

Vision and Mission

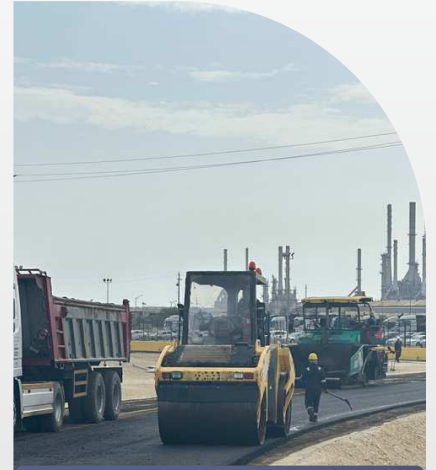

Our Vision

To be a trusted force in transforming Saudi Arabia's industrial and infrastructure landscape. Delivering smart, resilient, and future-ready construction solutions built on precision, integrity, and lasting partnerships.

Our Mission

To deliver dependable, high-quality engineering and contracting services with a commitment to safety, efficiency, and client satisfaction.

We aim to build lasting partnerships by responding with agility, executing with precision, and adapting to the evolving needs of Saudi Arabia's industrial and infrastructure sectors.

Core Values

Integrity

We act with transparency, honesty, and accountability.

Reliability

We consistently deliver on our promises.

Adaptability

We adjust to challenges and evolving client needs with flexibility.

Precision

We approach every project with accuracy and attention to detail.

Quality Excellence

committed to delivering work that meets the highest standards of craftsmanship, compliance, and performance.

Client Focus

We actively understand, and respond to our clients' needs, offering tailored solutions and long-term partnerships.

Services

We offer end-to-end solutions across the construction and industrial contracting sectors

01- Road Construction

- Site surveying and slope marking
- Supply and application of sub-base, base course, marl, and sand
- Grading, mixing, and compaction
- Asphalt laying (with or without sulfur, as required)
- Density and core testing for quality assurance

02- Waterproofing

- EPDM rubber sheet installation with mechanical anchoring, seam taping, and primer-coated substrates
- Supply and welding of HDPE liner membranes for chemical resistance in ponds, tanks, and containment areas
- Multi-layered waterproofing with geotextile separation, drainage boards, and protective screed
- Surface preparation, leak testing, and post-installation inspection to ensure system integrity

03- Electrical Work

- Complete electrical works for buildings and facilities
- Street lighting and area lighting systems (including high mast lighting for bridges)
- Installation of transformers, poles, distribution cabinets, meters
- Electrical design and installation for industrial, commercial, and residential infrastructure
- Substation room setup

04- Mechanical Work

- Structural steel fabrication and erection
- Cable tray & support structure construction
- Fabrication of mechanical works for industrial facilities
- AC duct fabrication and installation
- Installation of Air Handling Units (AHUs)
- RTR pipe installation
- Installation of fencing systems (including barbed wire and barbed coil)
- Safety barricade installation

Services

05. Equipment Rental Services

- Low bed & flatbed trailers for heavy transport
- Asphalt pavers, milling machines & compactors
- Man lifts, cranes (mobile, crawler, boom)
- Excavators, bulldozers, backhoes
- Dump trucks & tipper trucks
- Water tankers, suction tankers, and fuel bowsers
- Generators, air compressors, and light towers

06- Facility Management

- Building operations and technical maintenance (MEP, HVAC, lighting systems)
- Water system maintenance, plumbing, and drainage checks
- Scheduled inspections, reporting, and preventive maintenance
- Cleaning services and janitorial staffing
- Pest control and waste disposal
- Security system monitoring and access control

07- Manpower Supply

- Skilled and unskilled manpower supply
- Site cleaning and waste management
- General building maintenance services
- Site mobilization and logistics support
- HSE staff, safety officers, and flagmen deployment

08. Corrosion Control & Industrial Painting

- Waterproofing for roofs, basements, tanks, wet areas, and foundations
- Sandblasting and surface preparation
- Protective painting for pipes, tanks, drums, and structural components
- Application of epoxy, polyurethane, and fireproof coatings
- Internal and external coatings for storage tanks, pipelines, and industrial assets

Project Experience

We've delivered successful projects across civil, industrial, and infrastructure sectors, with a strong focus on quality, safety, and timely execution.

01. Waterproofing (HDPE & EPDM Installation)

Type: Industrial Waterproofing Solutions

Scope Highlights:

- Installed High-Density Polyethylene (HDPE) liner membranes with superior resistance to chemicals, punctures, and UV exposure.
- Applied EPDM rubber membranes for weatherproofing of flat and green roofs, offering flexibility and long-term durability.
- Projects included containment areas, liquid storage basins, and environmental protection systems.
- Executed by trained crews with strict material overlap, anchoring, and sealing procedures.

Outcome: Zero-defect waterproofing systems built for long lifecycle performance and minimal maintenance.

02. Asphaltting and Road Construction

Type: Surface Preparation & Prime Coating – Industrial Roads

Scope Highlights:

- Applied Prime Coat (MC1) and Tack Coat (RC2) for asphalt preparation using calibrated spray equipment.
- Ensured seamless bonding between sub-base and asphalt layers to extend pavement lifespan.
- Managed work under live industrial conditions, navigating overhead power lines and ongoing site activity.
- Maintained strict alignment with roadwork safety and adhesion protocols.

Outcome: Durable surface bonding delivered on schedule with high-precision material control.

Project Experience

03. Excavation & Backfilling

Type: Civil & Industrial Earthwork

Scope Highlights:

- Performed deep excavations, trenching, and grading for foundations, drainage, and utility corridors.
- Delivered accurate digging with leveling to match structural specifications.
- Supplied and compacted backfill materials: sub-base, clean sand, marl, engineered fill, and more.
- Managed work for multiple commercial and industrial foundations across varied terrain.

Outcome: Stable, safety-compliant ground conditions prepared for rapid structural progression.

04. Demolition & Site Clearance

Type: Structural Demolition – Industrial & Civil

Scope Highlights:

- Executed building and plant demolitions with strict adherence to environmental and safety standards.
- Dismantled standing infrastructure with controlled sequencing and dust mitigation measures.
- Handled debris removal, disposal logistics, and final site grading for future reuse.
- Operated under permit-sensitive conditions with full equipment planning.

Outcome: Zero-incident demolition projects delivered with minimal disruption and full site recovery.

Project Experience

05. Chemical Cleaning & Waste Handling

Type: Environmental Operations – Industrial Zones

Scope Highlights:

- Conducted chemical cleaning and waste management for oil-contaminated materials using loaders and precision operators.
- Delivered containment and surface protection to prevent environmental discharge.
- Complied with industrial hygiene, HAZMAT, and material segregation protocols.
- Coordinated logistics with client-side environmental supervisors for continuous safety compliance.

Outcome: Industrial zone restored to safe operational standards with documented environmental safeguards.

Other Projects

CIVIL PROJECTS

1. Supply & install Security Fence Type 4 with top & bottom (Saudi Aramco – PMA Gas Prod)
2. Asphalt works for link road (Aramco – Gas Plant)
3. Asphalt works for port service lane (Sinopec – Tanajib)
4. Refurbishment of SG-4 Gymnasium (Saudi Aramco – Riyadh Refinery)
5. Fabrication & installation of new platform at RT Terminal (Aramco)
6. Asphalt works at Jazlah Desalination Plant (Tajjun – Jubail)
7. Renovation of NGL Buildings (Saudi Aramco)
8. Replacement of defective steel supports & concrete foundation (Saudi Aramco)
9. Asphalt works for refinery parking lot (Aramco)
10. Demolition & renovation for Plants J24 & 62 (RT Refinery – Saudi Aramco)
11. Asphalt work at Substation (SEC) – Khafji

ELECTRICAL PROJECTS

1. Cable tray construction & excavation (UMD – Saudi Aramco)
2. Ground cable repair activities (RTR UMD – Saudi Aramco)
3. Replacement of 50 KVA twin UPS panels during T&I (RT Refinery – Saudi Aramco)
4. Renovation of control rooms (Plants #10 & #490 – Saudi Aramco)
5. Installation of electrical sliding door (Ras Tanura – Saudi Aramco)

INDUSTRIAL PROJECTS

1. Construction of New OSBs at N. HRDH & C. HRDH Units (Saudi Aramco)
2. Construction of Field Services Building near GOSP-11
3. Installation of cable trays at STF (RT Refinery – Saudi Aramco)
4. Coating & installation of packing for Air/H₂S Stripper @K86 (Tanajib Onshore – Saudi Aramco)

Our Work in Action

Our Work in Action

Our Work in Action

Empowering Our Workforce

Safety and Qualifications

At East Hope Contracting Company, safety and compliance are fundamental to our operations. As a trusted contractor for Saudi Aramco (Vendor #10112135), we uphold a proactive safety culture backed by international standards, rigorous training, and best-in-class protective equipment.

Health, Safety & Environmental (HSE) Commitment

- Comprehensive HSE Policy, with dedicated safety teams ensuring implementation at every site.
- Enforced Stop Work Authority, Job Safety Analysis (JSA), Hazard Identification Plans, and Incident Reporting Systems.
- Mandatory daily toolbox talks, weekly safety meetings, and emergency response drills.
- Ongoing HSE monitoring for compliance with Saudi Aramco Safety Instructions (GI / SAES).

Employee Training & Competency Certifications

All personnel undergo structured, documented training, including:

- Work Permit Receiver Training
- Confined Space Entry
- Scaffolding Safety & Inspection
- Lockout/Tagout (LOTO) for energized systems
- Electrical Safety Awareness & Arc Flash Protection
- H₂S Gas Safety & SCBA Training (for sour gas environments)
- Firefighting & Emergency Evacuation
- First Aid / CPR (Certified)
- PPE Use & Safety Awareness
- Driving Safety (Defensive Driving)

All training is managed through a Safety Training Matrix, with refresher schedules, attendance records, and expiry tracking.
